# Sound News

Three Hearing Instrument Specialists are here to serve you:  
Ray Conn, Chris Conn BC-HIS, and Mary Jane Conn

Spring 2016

## Technology Update

- Experience the all-new **Signia Primax** hearing system from Siemens! These new hearing aids are wireless, rechargeable, Bluetooth compatible and nearly invisible! Enjoy effortless hearing with 24 to 48 channels of sound processing and premium automatic features. Life sounds brilliant!
- The **Siemens Touch Control App** is available for iPhone and Android users. Most of the new Siemens hearing instrument models will work with this app, allowing your smart phone to become a remote control for your hearing aids!

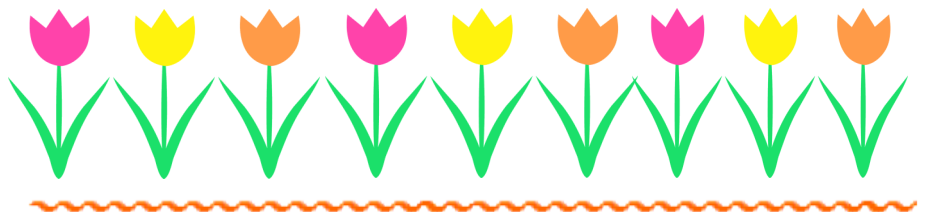

## Annual Hearing Screenings!

Often we have individuals come into our office who have not had a hearing test in several years. In most cases, this is due to the fact that these individuals have not noticed any significant changes in their hearing. However, sometimes they do realize a drop in hearing over a period of time but have postponed getting a hearing test for various reasons. (i.e. busy schedule, etc.)

We suggest annual hearing screenings; and over the past couple of years, we have been trying to make our patients more aware of this so that we can watch for any additional hearing loss. Any changes in hearing need to be properly addressed. This can often be accomplished by adjusting or re-programming the hearing instruments for better performance or by tightening up the fit of a custom hearing aid or earmold in order to allow for increased volume with less feedback.

If it has been a year or longer since your last hearing test or if you have noticed any changes in your hearing, please contact us to schedule a free hearing screening.

## QUICK TIPS

- Please remember to schedule your free hearing screening if it has been a year or longer since your last one.
- Most receiver-in-the-canal hearing instruments use a replaceable wax filter inside the receiver. We normally change this filter for you during your cleaning & checkup visit. If your hearing aid sounds weak, this might be needed.
- Check out our brand new **Accessories Guide**. Filled with useful products and supplies to keep you hearing your best. Pick one up next time you are in, or we are happy to send you one upon request.
